

REUSABLE PATTERN | RP-001

Source-grounded delivery-exception briefing

One recurring task, bounded drafting, visible evidence and mandatory human release.

BUSINESS OWNER

Priya Nair

Operations Enablement Lead | synthetic persona

REUSABLE INPUT TEMPLATE

Source ID	SRC-__
Time	__:__
Author / system	_____
Exact note	_____
Status / ETA	confirmed missing unknown

APPROVED / PROHIBITED USE

APPROVED

Summarise supplied notes. Draft cautious copy. Cite every fact. Label unknowns.

PROHIBITED

Invent timing. Resolve conflicts. Expose personal or access data. Send automatically.

REVIEWER CHECKLIST

- + Every factual sentence links to a source note.
- + Timing is explicitly confirmed, not inferred.
- + No conflicting status remains unresolved.
- + Personal and access details are absent or redacted.
- + The owner approves the exact customer-facing draft.

ESCALATION GUIDE

Dispatch	Missing ETA or unclear current status
Operations	Mutually exclusive source statuses
Privacy	Names, phone numbers or new personal-data use
Security	Credentials, gate codes or access instructions
Engineering	Invalid schema or unknown source ID
